

About Us

RZ FIBERGLASS, (Ya Qi Fa Fiber-Glass Products Company), is located in Shen Zhen City, Guangzhou, close to Hong Kong and the world's famous Yantian port in southern China. RZ fiberglass is an innovative product company that designs, develops and manufactures top quality fiberglass products. RZ Fiberglass has over 2000 existing molds for wide variety of projects ranging from automotive, construction to marine. Specializing in automotive restyling products, RZ fiberglass offers applications for Japanese, American and European vehicles.

RZ Fiberglass has a long and extensive history in the automotive industry in Taiwan since the early 1980s. Its family members are all actively involved in the different sectors of the industry covering from accessory outlets, parts distribution, and mechanical service center to major dealership operations. RZ Fiberglass has the tools and support to achieve the goals of its projects. Also, with a strict management system in place to manufacture high quality products, RZ Fiberglass pays specific attention to the on-going training of our technicians and further improvement of our mold design and manufacturing techniques.

Now, partnered with Zola Enterprises Co. Ltd. in Richmond, BC, Western Canada, www.ROCKETZ.net, RZ Fiberglass has the ability to do Research & Development to suit the needs of its global customers. Zola Enterprises also serves as a distribution center for western Canada and a communication medium for customers who feel more convenient and comfortable dealing with a North American company. RZ Fiberglass is also actively seeking warehouse distributors internationally, such as USA, Europe, Asia, South America, Australia and etc.

By working with RZ Fiberglass, its customers and partners can expect to have the expertise and the complete solution in leading-edge product designs, time and cost-effective product development and quality assured product manufacturing. RZ Fiberglass strives to provide the best fiberglass products and the best buying experience for all our customers.
